## Report On "GST : Goods and Service tax"

30<sup>th</sup> July 2018

S.N.B.P College, Yerwada, Pune organized one day college level workshop in the Department of BBA at 10.00am on 30<sup>th</sup> July 2018 on the topic "GST : Goods and Service tax". Asst. Prof. Chandrabhansingh Gaur Sir deliberated key note address on the topic GST in India and advantages and disadvantages of the "Goods and Service tax" for Customer and the producer. GST is a unified tax system that replaced multiple indirect taxes levied by both the Central and State Governments. Under GST, both the Central and State Governments share the authority to levy and collect taxes on goods and services.

- The goods and services tax (GST) is a tax on goods and services sold domestically for consumption.
- The tax is included in the final price and paid by consumers at point of sale and passed to the government by the seller.
- The GST is usually taxed as a single rate across a nation.
- Governments prefer GST as it simplifies the taxation system and reduces tax avoidance.
- Critics of GST say it burdens lower income earners more than higher income earners.

The goods and services tax (GST) is an indirect federal sales tax that is applied to the cost of certain goods and services. The business adds the GST to the price of the product, and a customer who buys the product pays the sales price inclusive of the GST. The GST portion is collected by the business or seller and forwarded to the government. It is also referred to as Value-Added Tax (VAT) in some countries.

Through this workshop students got knowledge of GST and learned advantages and disadvantages of "Goods and Service tax".
